CO1 CO3	<p style="text-align: center;">UNIT-V</p> <p>A a) Develop a paragraph of about 120 words on any one of the topics given below: i) Pollution ii) Solar energy iii) Merits and demerits of social media iv) Entrepreneurship</p> <p>UA b) Global warming refers to a gradual warming of the earth. Though many scientists believe that global warming is a natural phenomenon, most of us are aware of the fact that many human actions such as emitting Carbon dioxide and other gases into the atmosphere, cutting down trees, excessive consumption of water, petrol and other natural resources, besides unplanned, unnatural and mechanical development have contributed heavily to the triggering or escalation of the process. The results are for all of us to both witness and withstand. The ten hottest years in recorded history have occurred since 1970. There is an increased number of instances of natural fuzzy in the form of floods, Droughts, Tsunamis and Cyclonic storms. The number of patients suffering from skin cancer is increasing by the day. All this and a lot more establish the pattern of global warming for sure.</p>	6

CO	KL
