EC-8011

Roll No .....

## EC - 8011

## **B.E. VIII Semester**

Examination, June 2016

## Advanced Data Networks

(Elective-II)

Time: Three Hours

Maximum Marks:70

Note: i) Answer five questions. In each question part A, B, C is compulsory and D part has internal choice.

- ii) All parts of each questions are to be attempted at one place.
- iii) All questions carry equal marks, out of which part A and B (Max.50 words) carry 2 marks, part C (Max.100 words) carry 3 marks, part D (Max.400 words) carry 7 marks.
- iv) Except numericals, Derivation, Design and Drawing etc.
- 1. a) Why is cell splitting done?
  - b) Differentiate Wired Network from Wireless Network.
  - c) What is meant by Handoff?
  - Explain in detail the wireless system security and privacy.
    OR

Compare and contrast 1G, 2G and 3G cellular system.

- 2. a) List the challenges faced by WLAN industry.
  - b) List the four layers involved in SMS.
  - c) List the five major challenges for implementation of wireless LANs that existed from the beginning of this industry.
  - d) Explain GPRS system architecture with necessary diagram.

Explain in detail the architecture of the 2G GSM system.

EC-8011

- a) Draw the frame format of IEEE 802.11 physical layer using FHSS.
  - b) List the technologies for wireless geolocation system.
  - c) What are the MAC services of IEEE 802.11 that are not provided in traditional LAN 802.3?
  - d) Explain the architecture and reference model of HIPERLAN-2 in detail.

OR

Why IEEE 802.11 standard has two divisions in the MAC layer? Explain in detail about the MAC sub layer.

- 4. a) When does a WLAN become a WPAN?
  - b) Define GPS position location principle.
  - c) Define satellite signal acquisition.
  - Explain how do you take care of interference between Bluetooth and 802.11.

OR

Demonstrate the functioning of GPS with neat block diagram.

- a) What is SDH?
  - b) Define Kerr effect.
  - State the concept of WDM.
  - d) Explain the Optical Add/Drop Multiplexing (OADM) configurations.

OR

Explain the SONET frame structures and SONET rings with neat diagrams.
