| | B.E. VIII Semester | | | |
| | Examination, May 2019 | | | |
| Choice Based Grading System (CBGS) | | | | |
| | Advance Machining Process Time: Three Hours | | | |
| ks : 70 | Maximum Mari | | | |
| | i) Attempt any five questions. ii) All questions carry equal marks. | te: | No | |
| ess and | What are the different Advance Machining Proce what are their advantages? | a) | 1. | |
| 8 | Explain the water jet machining process. | b) | | |
| anical 6 | What are the recent development in mech processes? | a) | 2. | |
| sive jet 8 | Differentiate the ultrasonic machining and abras machining. | b) | | |
| | What are the factors that control surface fir machining process. How do you select the cutting parameters for finish turning? | a) | 3. | |
| rocess. 8 | Explain in detail the Electrochemical Machining P | b) | | |
| 'ECM'. | Explain the use of power source and electrolytes in | a) | 4. | |
| 8 | Write short note on Electrochemical deburring. | b) | | |
| PTO | 03 (3) (CBGS) 116 http://www.rgpvonline.com | E-80 | M | |

| 5. | a) | What are the advantages of Electric Discharge Machining (EDM)? |
|----|----|------------------------------------------------------------------------------------------------------------|
| | b) | What are the different thermal metal removal processes? Explain any one in detail. |
| 6. | a) | Explain the working of Plasma Arc Machining (PAM). |
| | b) | Differentiate the Electron Beam Machining (EBM) and Laser Beam Machining (LBM). http://www.rgpvonline.com |
| 7. | a) | Explain the principles and working of 3D printing. |
| | b) | What are the advantages and disadvantages of subtractive v/s additive manufacturing process? |
| 8. | a) | What are the different micro system devices? |
| | b) | Explain the different Nano Fabrication Processes. |
